LEONIL M. ALABADO

Chief Executive Officer
Barbaza Multi-Purpose Cooperative
Brgy. Cubay, Barbaza,
Antique 5706

Dear Sir Leonil M. Alabado,

I am writing to express my interest in the HR position at Barbaza Multi-Purpose Cooperative. As a fresh graduate of the Bachelor of Science in Information Systems, specializing in Business Analytics at West Visayas State University, I am eager to apply my academic training and practical skills while gaining meaningful professional experience.

Throughout my academic journey, I have built a solid foundation in data analytics and programming, gaining proficiency in tools such as Excel, RStudio, Weka, and Power BI, along with programming languages like PHP, MySQL, CSS, and JavaScript. My recent projects include our capstone—focused on project management and process automation—and an employee monitoring and tracking system developed during our internship. Both systems featured data visualization tools to streamline workflows, monitor progress, and aid decision-making. These helped strengthen my ability to interpret data, identify actionable insights, and design practical, user-centered solutions—skills that can be invaluable in supporting the cooperative's operations, improving efficiency, and guiding strategic initiatives.

For the past two and a half years, I've also had the opportunity to be a BMPC scholar, where I developed skills in administrative organization, document management, transaction processing, accurate data handling, and customer service—both through phone support and face-to-face interactions. These experiences have strengthened my ability to work efficiently, communicate effectively, and manage information with care and precision.

BMPC has long been a beacon of excellent service and commitment to the community, and I am inspired by the cooperative's values and impact. I am enthusiastic about the opportunity to contribute meaningfully to your initiatives while continuing to learn and grow alongside dedicated professionals. This role aligns with my goal of applying my background in business analytics in a real-world setting that values both innovation and service.

Thank you for considering my application. I have attached my resume for your review and would be delighted to discuss how my background can contribute to the cooperative's success.

Sincerely,

LOVELYNNE HEART E. TABUNLUPA
